

The *Daily Post-Tribune* 1942 Progress

Victory Edition Saturday, March 21, 1942

Indexed by Jeffrey Brylski

Index completed October 2017

A microfilm copy of the *Daily Post-Tribune*, Victory Edition, Saturday March 21, 1942 is available at the Peru Public Library and the LaSalle Public Library.

When researching ancestors, finding information beyond city directories and census records is difficult. Newspapers are vital to adding context, providing birth, marriage, death announcements and sometimes more. In March 1942, the local La Salle newspaper published a special Victory Edition listing over 1,000 locals serving in the military. Thanks to Jeff Brylski's indexing of the Victory Edition's names, researchers have another area resource for searching circa World War Two.

Victory Edition - March 21, 1942

From the indexer, Jeff Brylski:

The following is an alphabetical listing of area men and women serving in the armed forces whose names appeared in the special Victory Edition of the *Daily Post-Tribune*, published on March 21, 1942. Inductee dates range from February 1941 through February 1942. As possible, rank, branch, status and home town are also

The special edition comprised 8 sections and 120 pages. The sections are not numbered, but are broadly designated by town or church. Each section begins with a new front page as page 1. The first seven sections each have 16 pages, section 8 has 8 pages. Most of the names listed consist of a photograph of the serviceman or woman, accompanied by a short biography and military assignment. Obvious typographical errors were corrected.

Please note that many men, while drafted into the Army, trained and served in the Army Air Corp (aka Air Corps (AC)). The U.S. Air Force was established 18 September 1947. The first Army Air Corps training facility was located at Jefferson Barrack, St. Louis County, Missouri. Following the attack on Pearl Harbor (December 7, 1941), many army inductees were assigned to coast guard artillery-training units located in California. However, these were Army units, not U.S. Coast Guard facilities.

Finally, the publisher, editors and journalists deserved a salute for their public service of gathering information for the Victory Edition, this was an undertaking 'above and beyond the call of duty.'
