

News-Tribune Bicentennial Edition (I)

Our Past in Pictures

April 29, 1976

Indexed by Jeffrey Brylski

The following is an index of the various people, topics, and articles which appear in the Bicentennial supplement to the April 29, 1976 edition of the News-Tribune.

If you are searching for an article or photograph cited below, keep in mind the 120-page supplement was not numbered by page. You will need to count the pages to locate the article or photograph you are seeking.

The Richard A. Mautino (Spring Valley) Public Library has a laminated copy of the supplement which has been paginated for easier reference.

A second part of the Bicentennial Edition was published on July 1, 1976, that index follows the April 29 index.
