

The Daily Post- Tribune

1942 Boys in Service / Men in Service Index

Indexed by Gregory Brate

Index Completed November 2022

A microfilm copy of The Daily Post-Tribune is available at the Peru Public Library

On April 10th, 1942, The Daily Post-Tribune started a daily column called Boys in Service (Later called Men in Service) that was dedicated to local men and women serving in the Military during World War 2. This column included news about promotions, transfers, letters home, home and military addresses, etc., and pictures were often included. This information was mostly gathered by the family and friends of those serving.

This index includes names, branch of service, rank, home town, and if there is a picture. Hopefully, this index will serve as another resource for those researching local heroes who served in World War 2.
